Au Act to provide for the publication of the names of tax-payers, approved

March 5, 1885, is as follows: Secrios 1 .- It shall be the duty the Assessor in each of the respective counties of this State on or before the second Monday in September in each year to prepare a printed list of all the \$ax-payers in the county, and the total valuation of the property on which they severally pay taxes. A copy of said list shall be by the Assessor, delivered in person or mailed to each and every taxpayer in the county, provided, that the cost of printing the aforesaid lists shall not exceed twenty cents for each name for as many copies as there are names on the list.

Section 2 .- The several Boards of County Commissioners of this State are authorized and empowerd to ailow the bill contracted by the Assessor under this Act, and the several County Auditors are authorized to draw their warrants in payment of the same.

In pursuance of this distute the As-Jists as required by law, the work was | the first Monday of January, 1887, " meeting last Monday. But now comes th: Watch dog of the Treasury, the stone the District Attorney of Elko county, and interposes an objection to the payment of the bill on the ground that it is county printing, and should be performed by this office in pursuance of the contract to do the county printing, and that, too, without any extra compensation; notwithstanding the Act above quoted makes it the duty of the Assessor to contract for the printing of the lists at a cost "not to exceed twenty as there are names on the list," and he may, if he so desires, have the lists as the matter is left by law engirely in the hands of the Assessor, and "the seyeral Boards of County Commissioners in this State are authorized and emthe Assessor under this Act."

No more lucid and unequivocal language could be used in pointing out the duty of the Assessor and the County Commissioners in the premises, and we are auxious to know if there is a District Attorney outside of Etko county who could, by any stretch of the imaginatjou, constructivis Act to mean anything else than that the Assessor shall tax-payers, and the Commissioners the service. shall allow the bill for the same.

AMERICAN SILVER CONGRESS,

The Board of Management of the North, Central and South American Exposition at New Orleans have added to their list of special days an "Ameri- talk about a whipping post. can Silver Congress," assigning it to D cember 11th and 12th, the two days following the "American Bankers' Congrees," This was in response to a request from the silver interest. Fire in San Francisco.

A San Francisco dispatch to the Silwer State says: The large stationery and printing establishment of H. S. Crocker & Co., Bush street, was burned to the ground this morning. Four men were buried in the ruins. The total tess of stock and building is \$500,000; estimated insurance about one-third of that amount.

A later dispatch says two of the four firemen buried in the rains have been rescued, one of them unconscious. The other two, whose names are Martin Hannan and Peter Healey of Engine No. 4, are undoubtedly dead.

The Idaho Avalanche says: "The seent Democratic State Convention of New York, in their platform recommended the suspension of coinage of the silver dollar. Every poor, laboring man who votes the Democratic ticket will advocate that policy." Well, the Republican State Convention of New York in their platform recommended the same thing. Now, what will the poor, laboring man who votes the Republican ticket advocate?

Pious, humane, God-fearing Boston is becoming alarmed at the prospect of an over-abundance of the heathen Chinese for whom such a tender regard was expressed but a short time since. The denizeus of the "Hub" are having their eyes open to the fact that there is in reality such a thing as a "Chinese Eyil."

The att mpt to prove that the Chinese miners of Rock Creek, Wyoming, set their own cabins on fire reminds one of the Dutchman who was called as a witness to prove that in a fight one man had bit off the other's nose, When asked how the plaintiff had lost his home the Teuton replied: "Vell, I dond know apout dot. A Dangerous Law.

The Carson Tribune says: A very prominent lawyer, formerty of this State, in referring to the judiciary law passed by the late Legislature, denounced it as the most dangerous exp-riment ever attempted. To the Tribune reporter the gentleman remarked "that by such Legislative proedure a way was opened for the entire control of the State by heavy corporations, and that if the law should not be proved unconstitutional the future of the State is precarious indeed. That the very name of the State of Neyada is considered synonymous with bribery and corruption by citizens of all the eastern States, and that by the legislative Act in question, the very climax of corruption might be reached." Among the many mistakes made by the last L gislature more is more palpably so than the passage of the Judiciary Act. One absurdity which we have not seen mentioned by the press of the State is the following: Sec. 6 of the Act provides that the County Treasures of the several counties shall pay into the sessor of Elko county contracted with State Treasury on the first Monday of the INDEPENDENT for the printing of the January of each year, commencing on performed, and a bili presented to the the amount due or to become due to the County Commissioners at sh ir regular District Judges for the preceding three months. Now, as the law is not to take effect until the first Monday in "Pec, le's Choice," this modern Black- January, 1887, the question auturally arises, how much will be due to the District Judges for the three mouths preceding the time when the law goes into effect?"

NO EXCEPTIONS.

Secretary Endicott seems determined to adhere to the rule recently adopted requiring officers of the Army who have long been on detached service to rejoin cents for each name for as many copies | their respective commands. A Washington dispatch of the 7th instant says: Upon a request preferred by Generals prated in New York or San Francisco, Sheridan, Schofield, Pope and Howard, that their present personal aids be made exceptions to the recently issued order sending back to their regim ats all officers who have b en absent therepowered to allow the bill contracted by from, on detached duty or staff duty four years or more, Secretary Endicott has had the matter brought to his attention, and has decided that no exceptions be made to the operations of the order, The order was issued after long and personal consideration by the Secretary, who fully knew the effect it would have. He had become confident that under the prevailing system, detached officers lost interest in their regiments, and that its contract for the printing of the lists of continuance would be demoralizing to

THE BUSINESS OUTLOOK.

The business prospects of the country

being a subject of absorbing inter st to all classes of people at this time, the views of those who speak with apparent authority from their advanced positions neighbor's where she met her lover aged in the commercial world, are eagerly sought for. The Chicago San, the new and very ably conducted paper of that city says: "While there is a steady, although slow improvement indicated in almost every branch of trade and industry, there are many who can see nothing encouraging in the outlook. It is Lieutenant-Governor, respectively, are true our import trade has fallen off promulgated to-night. They accept the about 14 per cent., and that our exports have not increased, yet the balance of form, Mr. Dayenport declares himself trade is largely in our favor. We are selling more abroad than we buy, and hence the tendency of the money is to the country and not out of it. This is a healthy condition, for no man or country eyer failed when he was selling more than he bought. There have been three heavy failures the last week, but the financial papers tell us that they were all on the "bear" side of the market, which shows that the tendency of prices is upward.
